FIRST RESPONSE Training Group, LLC

FIRST RESPONSE is a provider of continuing medical education for public safety, allied health and military medical professionals. We conduct the highest quality, accurate, practical and relevant classes possible.

Our programs are nationally recognized and tailored to meet the specific needs of agencies and students from novice to professional. We deliver challenging, realistic hands-on classes, where the practical application of medical and decision-making skills are taught with the purpose of graduating students that are empowered to act with confidence in emergency situations.

Our seasoned instructors are all healthcare professionals. They come from various specialties within the field, such as; Firefighter/Paramedics, S.W.A.T. Medics, Combat Medics, Nurses, Physician Assistants, and Doctors. They all share the owner's philosophy that "the quality of the graduate is paramount."

Course Description:

Course Description: The American Heart Association Pediatric Advanced Life Support course is based on science evidence from the 2010 AHA Guidelines for CPR and ECC. The goal of the PALS course is to aid the pediatric healthcare provider in developing the knowledge and skills necessary to efficiently and effectively manage critically ill infants and children, resulting in improved outcomes. Skills taught include recognition and treatment of infants and children at risk for cardiopulmonary arrest; the systematic approach to pediatric assessment; effective respiratory management; defibrillation and synchronized cardioversion; intraosseous access and fluid bolus administration; and effective resuscitation team dynamics
